ScholAR[®] Chemistry

*is here to offer
you solutions.*

This new and improved edition of the **ScholAR Resource Manual** is an all-inclusive up-to-date guide for chemistry educators. Designed as a comprehensive resource, inside you'll find everything you need to manage a safe and productive chemical classroom and lab.

Whether it be the largest selection of chemicals or chemical safety training you seek, ScholAR Chemistry has exactly what you need. Learn about our new Professional Development Workshops, In the Bag Inquiry Activities, and re-designed AP Chemistry Labs—each of which focuses on techniques for student engagement, convenient set-up, and establishing a safe and productive chemistry classroom and lab.

You'll find all the latest ScholAR Chemistry solutions inside the pages of this manual, and online from your preferred ScholAR Chemistry distributor.

Your safety is our first priority!

ScholAR[®] Chemistry

Our Guarantee

Our 100% satisfaction guarantee means we will take every step necessary to ensure you are happy with your order. If you do not want an item you purchased, we will be glad to offer you a refund, credit, or replacement with no questions asked. Simply call our customer service team with your concerns, and we'll be happy to find you a fast and easy solution.

Product Availability

Colors of items may vary and products appear different from the pictures shown in the catalog. At times our products may change in appearance without notice, but the item offered will still satisfy all the product specifics and requirements.

Shipping Charges

Shipping is an additional charge added to each order. These charges can vary depending upon the nature of the product, weight, destination, delivery date, and method of delivery. The minimum charge for ground delivery is \$8.00. To estimate your shipping charge, take 12% of your order value. Certain chemicals, live materials, and microbiological specimens classified as hazardous by the D.O.T. may be subject to additional packaging and handling fees. If you are unsure about shipping charges for your order or would like an estimate for shipping to Alaska and Hawaii call customer service. Our shipping terms are FOB shipping point, unless otherwise specified.

Pricing

Every effort is made to ensure accuracy in our item representation and pricing before publication. However, if a typographical error should occur, we are not obligated to honor the misprinted price. If you are unsure of a price, please call our customer service team for confirmation. Credit is extended to all educational institutions. Terms are net 30 days from the date of invoice. Teacher's personal orders are always welcome.

Sales Tax

Sales taxes where applicable (local, state, or federal) will be added to the invoice price.

Chemicals

Because of their special handling requirements, orders for chemicals will only be accepted from educational and research institutions. Chemicals will not be shipped to individuals. Due to special shipping and handling requirements, freight companies routinely impose a surcharge on each package of hazardous materials shipped. Please contact our customer service department for details.

Return Goods Authorization

You should inspect all packages upon delivery and immediately note any damage. A carrier inspection could be required before any material is returned to us. We do gladly accept product returns for any reason within 90 days of purchase. Please contact our customer service department for a return authorization number and necessary instructions for returning product. Product returned without prior authorization might not be accepted and could result in no credit issued. Items returned must be unused and in their original packaging including any packing material. Items under warranty could be repaired or replaced at our discretion. Some special items may not be returnable. A restocking fee could be applied to returns not meeting these conditions. Our Customer Service team will be happy to answer any questions you might have about returning your order.

Your Shipments

Please inspect all packages carefully immediately upon arrival. Examine the contents carefully to make sure that a product is not overlooked. Notify us as soon as possible if there are shortages, missing products or if a package or shipment is damaged. A carrier inspection might be required. Your prompt notification is your best insurance for a quick replacement. We will handle all communication with the package carrier for you.

Customer Service

Our friendly customer service representatives are always ready to take your orders and address your questions or concerns. So we can better assist you, please have your order number readily available when you call with inquiries on your orders. The order number appears in the top left hand corner of each packing slip and invoice. You can also refer to your purchase order number and school zip code for expedited service.
